

MICHAEL D. ADAMS

16203 N. Greenfield, Spring, TX 77379 | 832-610-6307 | acsprogrammer@gmail.com

SENIOR AV ENGINEER | CONTROL SYSTEM PROGRAMMER | TEAM LEADER

AV industry veteran with over 35 years of comprehensive experience designing, programming, and delivering complex audio-visual systems—from small conference rooms to global enterprise deployments. Proven leader in full project lifecycle management, technical team development, systems integration, and client success. Recognized Subject Matter Expert (SME) in Crestron and other industry-standard platforms. Highly organized, technically proficient, and committed to quality and efficiency at scale.

CORE COMPETENCIES

- AV System Design & Engineering
- Project Lifecycle Management
- Technical Team Leadership
- Enterprise-Scale Programming (Crestron, Biamp, Q-SYS, NVX, etc.)
- Onsite Commissioning & Global Deployments
- AV Standards & Documentation (AutoCAD, D-Tools, Visio)
- Client Relations & Cross-Functional Collaboration
- Remote Support Team Management
- AV/IT Convergence & Collaboration Platforms

PROFESSIONAL EXPERIENCE

IES Communications – Houston, TX

AV Technical Manager – Texas and East Coast (2025 – Present)

- Ensure all projects within assigned regions are completed in accordance with company standards for quality, consistency, and performance.
- Review large-scale estimates to validate technical feasibility and budget alignment prior to execution.
- Collaborate with design engineering and programming teams to maintain alignment across all phases of project delivery.
- Review documentation packages to ensure accuracy, compliance, and completeness.
- Serve as part of a national technical team supporting regional branch operations.
- Oversee AV operations across 7 branch locations.
- Lead 7 direct reports on the national team, including commissioning and documentation engineers.

Wachter, Inc. – Lenexa, KS

AV Team Manager / Programming Team Lead (2021 – 2025)

- Spearheaded team growth from \$3M to \$20M+ in annual AV revenue.
- Developed and implemented standardized engineering and programming procedures to improve project efficiency and profitability.
- Led national and global deployments for high-profile clients such as Walmart HQ (Bentonville), T-Mobile Call Centers, BJ's Wholesale, and AWE Art Galleries.
- Acted as technical escalation lead and field commissioning coordinator.

FusionStorm / ComputaCenter – Houston, TX / San Francisco, CA

Senior AV Engineer / AV SME (2015 – 2021)

- Principal Engineer for marquee clients including Google, Apple, GM Cruise, and Indeed.
- Oversaw multi-site rollouts, standard development, programming, and on-site launches:
 - Google: Led POC through 10-site national rollout, including on-site AV support for openings.
 - Apple: Global project/program manager; ensured AV/IT alignment at flagship sites.
 - GM Cruise: Developed AV standards; managed reconfigurations and system delivery globally.
 - Indeed: Designed scalable AV room standards; provided support across US and Australia.

Pepperdash Technology Corp. – Boston, MA

Site Manager / Senior Crestron Programmer (2014 – 2015)

- Managed programming team at ExxonMobil HQ (The Woodlands, TX) for a 1,600-room AV deployment integrated with Crestron Fusion.
- Served as technical liaison between programmers, design teams, and client stakeholders.

Clark-Powell – Charlotte, NC

Crestron Programmer / AV Systems Integrator (2012 – 2014)

- Delivered full-scale AV programming for clients including Wells Fargo HQ and Buncombe County Courthouse.
- Implemented courtroom AV for live monitoring, vocal reinforcement, and archival recording.

Adams Consulting Services – Spring, TX

Founder / Principal Consultant (2005 – 2012)

- Delivered end-to-end AV solutions for universities, hospitals, and public venues.

Key projects:

- Texas A&M; Memorial Student Center (Crestron, Biamp, Vocolon integration)

- MD Anderson Training Center (\$3M AMX/AV estimate and design)
- Houston Community College (RoomView campus monitoring)
- Olson Field at Texas A&M; (Stadium-wide AV control and distribution)

Intuitive Homes – Houston, TX

Designer / Operations Manager (2004 – 2005)

- Helped develop cross-platform AV user interface; scaled operations model for franchise expansion.
- Progressed from Senior Designer to Head of Sales & Operations.

Audio-One – Miami, FL

Chief Design Engineer (2003 – 2004)

- Designed professional recording studios for high-profile artists (Ozzy Osbourne, Aerosmith, Chick Corea).
- Managed high-end residential AV projects exceeding \$1M.

Mastertech & Sound Design – Houston, TX

Managing Partner / President (1995 – 2003)

- Managed structured wiring and alarm installations for over 45 builders and 2,000+ clients.
- Maintained licensing compliance with Texas Board of Private Security.

EDUCATION & CERTIFICATIONS

U.S. Navy – Aviation Electronics Technician (1988 – 1991)

- ALQ-99 Radar Jamming System Specialist
- AFTA Program Graduate

Houston Community College – Completed 60 credit hours

INDUSTRY CERTIFICATIONS & TRAINING

- Crestron: Certified Level 3 Programmer, CNS-D, CNS-I, DM-NVX, DMC-D-4K, DMC-E-4K, IVC-E
- Biamp: TesiraForte Certified
- Extron: AV Associate, Control Associate
- QSC: Q-SYS Level 1
- Dante: Level 1 & 2 Certified
- AVIXA: CTS, CTS-D (in progress)
- Polycom, Tandberg, ClearOne: Certified
- Lutron: Lighting & Shade Control Certified
- AutoCAD, D-Tools, Visio: Fluent and production-ready
